# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                 | Topics/Chapters to be covered |                                                                                | Academic activity to be organized | Topic of Assignments/Tests to be given to the       |
|------|-------------------------------------------|---------------------------------------------------------|-------------------------------|--------------------------------------------------------------------------------|-----------------------------------|-----------------------------------------------------|

Sangeeta

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                  | Topics/Chapters to be covered |                                                  | Academic activity to be organized | Topic of Assignments/Tests to be given to the |

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                   | Topics/Chapters to be covered |                                                                         | Academic activity to be organized | Topic of Assignments/Tests to be given to the |
|------|-------------------------------------------|-----------------------------------------------------------|-------------------------------|-------------------------------------------------------------------------|-----------------------------------|-----------------------------------------------|

Manju

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                                                 | Topics/Chapters to be covered |                                                                               | Academic activity to be organized | Topic of Assignments/Tests to be given to the  |

### Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                        | Topics/Chapters to be covered |                                                     | Academic activity to be organized | Topic of Assignments/Tests to be given to the |

| 1    | Madhu Kakkar<br>Associate Professor of Physics<br>(Acting Principal) | Physics B.sc 2nd (Sec A&B) computer Programming and Thermodynamics | July                          | Computer Organization, Binary representation Algorithm Development, Flow charts, FORTRAN Preliminary: Integer and floating point arithmetic expression, built in functions, Executable and non-executable statements, input and output statements                                                                                                                                                                                                                                                                                                                                   | Visit to library                              |                                                                                  |
|      |                                                                      |                                                                    | Aug                           | IF, DO and GO to statements, Dimension, Arrays, Statement Function and Function subprogram. Algorithm, flow chart and programming for print out of natural numbers, Range of the set of given numbers, ascending and descending order, mean & standard deviation, product of two matrices, numerical integration                                                                                                                                                                                                                                                                    | Group discussion, Visit to library            | Assignment-1<br>Topic- "computer Organization"                                   |
|      |                                                                      |                                                                    | Sept                          | Thermodynamic System and Zeroth law of thermodynamics, First law of Thermodynamic and its limitations, reversible and irreversible process. Second law & its Significance. Carnot theorem, absolute scale of temperature. Joule's free expansion, Joule Thomson effect and its experiment, entropy, entropy of reversible and irreversible process. T-S diagram, entropy of a perfect gas, Nernst heat law, liquification of gases, Solidification of He, cooling by adiabatic demagnetization.                                                                                     | Class test, Visit to library                  | Assignment-2<br>Topic- "Carnot cycle & Joule Thomson Effect".                    |
|      |                                                                      |                                                                    | Oct                           | Derivation of Clausius-Clapeyron and Clausius latent Heat equations and their significance, specific heat of saturated vapours, phase diagram and triple point of a substance, development of Maxwell thermodynamic relations. Thermodynamical functions: Internal energy (U), Helmholtz function (F), Enthalpy (H), Gibbs function (G) & their relations, derivation of Maxwell thermodynamical relations from functions, application of Maxwell relations, derivations of Stefan's law, adiabatic compression and expansion of gas & deduction of theory of Joule Thomson effect. | Group Discussion, problem taking.             | Test topic: Fortran Constants and variables. "Carnot theorem and its efficiency" |
|      |                                                                      |                                                                    | Nov                           | Revision                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Group Discussion, problem taking, class test. | University Exam                                                                  |
|      |                                                                      |                                                                    | Dec                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                               | University Exam                                                                  |

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                  | Topics/Chapters to be covered |                                                   | Academic activity to be organized | Topic of Assignments/Tests to be given to the                            |

### Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                        | Topics/Chapters to be covered |                                            | Academic activity to be organized | Topic of Assignments/Tests to be given to the                   |

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                                             | Topics/Chapters to be covered |                                              | Academic activity to be organized | Topic of Assignments/Tests to be given to the |

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                                          | Topics/Chapters to be covered |                                     | Academic activity to be organized | Topic of Assignments/Tests to be given to the |

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                       | Topics/Chapters to be covered |                                       | Academic activity to be organized | Topic of Assignments/Tests to be given to the            |

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                          | Topics/Chapters to be covered |                                                 | Academic activity to be organized | Topic of Assignments/Tests to be given to the                     |
|------|-------------------------------------------|--------------------------------------------------|-------------------------------|-------------------------------------------------|-----------------------------------|-------------------------------------------------------------------|
|      |                                           |                                                  | Month                         | Topic                                           |                                   |                                                                   |
| 1    | SUMAN RANI                                | CHEMISTRY<br><br>B.Sc III<br>Inorganic Chemistry | July                          | —                                               |                                   |                                                                   |

Suman Rani

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                   | Topics/Chapters to be covered |                                                 | Academic activity to be organized | Topic of Assignments/Tests to be given to the             |
|------|-------------------------------------------|-------------------------------------------|-------------------------------|-------------------------------------------------|-----------------------------------|-----------------------------------------------------------|

# Summary of Lesson Plans of College Faculty

Name of College:- F. C College For Women, Hisar

Academic Session: 2017-18

Semester : Odd

For month July to December

| S.No | Name of the Assistant/Associate Professor | Subject                                   | Topics/Chapters to be covered |                               | Academic activity to be organized | Topic of Assignments/Tests to be given to the         |
