The Student Satisfaction Survey has provided valuable insights into the students' perspectives on various aspects of the institution. Following are the observations and suggestions from open ended questions:

- Overall, the majority of students were satisfied with the teaching-learning process and institutional infrastructure.
- The use of modern teaching aids, such as ICT tools, has been appreciated, though there is room for improvement in making teaching more interactive.
- There is a strong demand for updated course content and more opportunities for industry exposure.
- The institution's infrastructure, particularly the library, has been positively reviewed, although there is a need to improve digital connectivity on campus.
- Student support services and extracurricular activities were well-received, but some improvements could enhance the overall student experience.
- Introduce more student-centered learning activities, such as group discussions, case studies, and project-based learning.
- Upgrade lab equipment and improve Wi-Fi connectivity across the campus.
- Increase the availability and accessibility of academic counseling and mental health services.
- Provide more platforms for students to participate in sports and cultural activities

This report format helps an institution summarize the key findings and provides actionable insights for improvement based on student feedback, an essential step in the NAAC accreditation process.
